WORK

2023-now: [Panaxeo - Project Person](#)

Scrum stuff. Helping make cancer suck less. I do process thingies good.

2023-now: [Blind Octopus Studios - Ops Person](#)

We make games that need 0 vision (as in eyes, we do have artistic vision). Responsible for a lot.

2021-2023: [Websupport - IT Project Person](#)

Made scrum stuff happen. Moved customers (not physically), made business e-mails cool again.

2013-2021: [AT&T - Project Person \(IDK What you expected\)](#)

Made machines do work faster than people. Waterfall project stuff. Really good at spreadsheets.

2011-2013: [HP/Ajilon - Cry when servers are down person](#)

^That

SCHOOL AND STUFF

2022-2025: [Video Game Theory \(University\)](#)

In theory, I can make games now.

2009-2011: [Japanese/English Linguistics \(University\)](#)

I don't know what I can do now based on this one.

Certified: [PSM II](#), [Prince2](#), [English C2](#), support main, also Google says I can do marketing stuff

Tools: [Atlassian](#) suite, [Photoshop](#), [Figma](#), some game engines (badly), some code ([HTML5](#) and a snake), [Maya](#), definitely not hammers (I tried)
